## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 16, 2006 has been entered.

### ***Allowable Subject Matter***

2. Claims 1, 3-28 and 30-37 are allowed.

3. The following is an examiner's statement of reasons for allowance: Reasons for allowance of claims 27, 28 and 31-36 are given in the previous office action. The examiner agrees with applicant's characterization of why the instant claims distinguish over the prior art of record. The prior art fails to disclose a motivation for using a gas flow tube-stack near to but spaced apart from the upstream end of the filter, or means for electrically stabilizing the electrode arrangement with an atmospheric glow discharge electrode near to but space apart upstream from an upstream end of the filter, in combination with the other recited elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
